## Jesus Tweet!

How EVERY Church Can Use Social Media  
to Reach Their Neighbors.

*Presenter: Rev. Cean James*

In today's ever evolving landscape, if your congregation does not have a healthy social media presence, you are practically irrelevant to half the population. Many churches hesitate to be active on social because they are afraid of the unknown and feel unequipped to launch into this deep abyss. Every congregation, with very little money and some serious elbow grease, can, and should, have a very active presence on social media. During this three hour workshop you will learn how.

It is best for churches to attend in groups and each group should have a laptop. Wi-Fi will be provided. If you don't have a laptop, a smartphone will do.

**There are three opportunities to participate in this workshop.**

**Each session will offer the same information.**

***Registration @ 8:30 am - Workshop 9:00 am—noon***
