Many churches have, by necessity, become very creative in managing online worship during the pandemic. Knowing that in-person worship will return at some point, our communities should begin to think about how in-person worship can begin while still maintaining quality online worship. There are several ways this can be accomplished, but each requires intentionality. In order not to be caught unprepared, this workshop will offer suggestions on how to continue online worship while returning to in-person worship and doing both in a meaningful way.

This is a free workshop thanks to your OCWM contributions!
