The Environmental Justice Mission Team Invites Your Church to jump into: Off-Plastics October

Eliminating single-use plastic from our lives will help reduce litter, ease landfills, and reduce the use of petroleum for disposable products. It will reduce the volume of micro-pellets of plastic that are showing up on land, sea and air, and in animals and humans. It will signal to oil and gas producers that they can move on to cleaner energy because there will be less demand for petroleum products. It will reduce the amount of chemicals from plastic manufacturing, arriving in our air and water.

- Sign up your church to take at least 10 concrete steps to stop using single-use plastic for your meals and activities.
- List them in the form linked below and **submit them by Oct. 31**

FIVE CHURCHES THAT SUBMIT THEIR FORMS WILL BE CHOSEN AT RANDOM TO RECEIVE A \$50 PRIZE FROM THE EJ TEAM!

WINNERS WILL BE ANNOUNCED AT THE ANNUAL MEETING, NOV. 9!

So get your youth group, men's breakfast club, women's guild to undertake a review of the church kitchen and Sunday school closets and make a list.

See the suggestions on the application form. Link to application form found below.

Yours for a livable world,
The Environmental Justice Mission Team
